15. RMHC canisters empty and clean, signage in good condition
16. Clean outside lighting including soffits
17. Clean corral area, cover all containers and keep gates closed

DRIVE-THRU, PARKING LOTS & EXTERIOR

WEEKLY CLEANING

SUPPLIES:

KAY® QSR
Heavy Duty
Degreaser

KAY® Indoor/
Outdoor
Absorbent or
Wet Vac

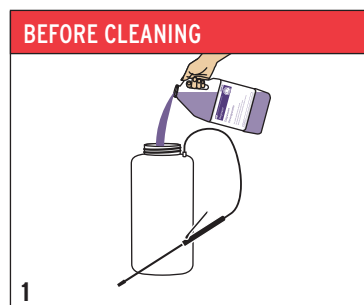

2 gal.
Pump-up
Sprayer

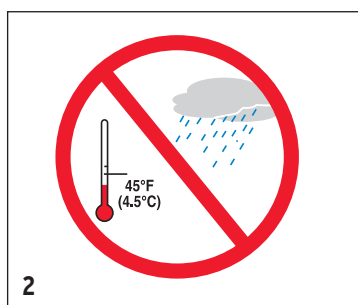

KAY® SolidSense™
All Purpose Super
Concentrate (APSC)

Other supplies needed:
Deck Brush
Hose with Spray Nozzle
Clean Bucket
High Visibility Safety Vest
(Any vest with ANSI
Class III rating)

IMPORTANT: Apply product to dry surfaces only. Do not apply to deteriorating asphalt.

- Pour 1 gal. (3.8 L) Heavy Duty Degreaser and 1 gal. (3.8 L) lukewarm (85-105°F) water into pump-up sprayer
- NOTE:** For heavy soil, full-strength Heavy Duty Degreaser can be used

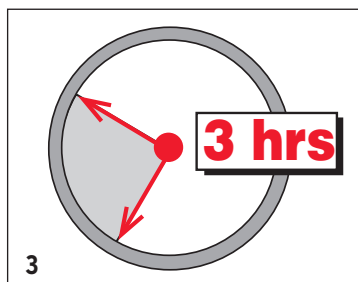

- Remove trash or debris from drive-thru, parking lot and exterior areas before application
- NOTE:** Do not clean outside surfaces if freezing conditions are expected or if rain is expected within 3 hours of cleaning

- Apply onto soiled areas with pump-up sprayer until thoroughly wet; avoid runoff

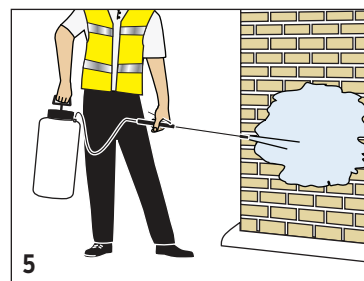

- Deck brush heavy soils immediately

- Let stand at least 3 hours; for best results, let stand overnight
- NOTE:** Do not clean outside surfaces if freezing conditions are expected or if rain is expected within 3 hours of cleaning

- Thoroughly rinse area; do not discharge runoff into storm sewers

- Spray on soiled wall areas
- Deck brush heavy soils immediately
- Thoroughly rinse area; do not discharge runoff into storm sewers

- For painted surfaces use APSC in a bucket with a deck or pot brush
- Thoroughly rinse area; do not discharge runoff into storm sewers

- For runoff areas, apply Indoor/Outdoor Absorbent; sweep absorbent material into a dust pan and discard in dumpster

IMPORTANT: Observe all applicable regulations for disposal. **DO NOT** discharge runoff to storm sewers. If using a wet-vac, pour contents into interior drain leading to a sanitary sewer. For absorbent material, dispose of used material in dumpster observing all local disposal regulations.

DRIVE-THRU & EXTERIOR CLEANING

Don't forget to clean these areas thoroughly
EVERY DAY

The customer experience begins in the parking lot. The restaurant's exterior IS the experience for drive-thru customers. Ensuring Guests have a positive impression of exterior cleanliness will keep them coming back.

MAINTENANCE CHECKLISTS

DAILY

Only work outside when the restaurant is open and when it is light out. Wear a safety vest.

Take trash to corral. Clean corral, drive thru-lane, parking lot and sidewalks.

- ☐ Wash top of castle bin with a nylon pot brush and Heavy Duty Degreaser Solution. Spray inside of can with Sanitizer Solution and allow to air dry.
- ☐ Carry trash bags to corral.
- ☐ Break down boxes and take to corral.
- ☐ Sweep corral, drive-thru lane, parking lot and sidewalks.
- ☐ Scrub corral walls and doors with Heavy Duty Degreaser Solution and deck brush as needed.
- ☐ Spray spills with Heavy Duty Degreaser Solution.
- ☐ Spray empty grease barrels with Heavy Duty Degreaser Solution as needed.
- ☐ Remove gum from drive-thru lane, parking lot and sidewalks which were sprayed with Heavy Duty Degreaser Solution.
- ☐ Scrub grease barrels that were sprayed with Heavy Duty Degreaser Solution with a No-Scratch Pad.

Clean walks and patios

- ☐ Clean walks and patios.
- ☐ Scrub soiled areas with deck brush and Heavy Duty Degreaser Solution.
- ☐ Clean curbs with Heavy Duty Degreaser Solution.
- ☐ Rinse toward drain.

Clean outside windows

- ☐ Clean decorative panels below windows with Peroxide Multi-Surface Cleaner and Disinfectant Solution.
- ☐ Clean windows with SolidSense All-Purpose Super Concentrate (APSC) Solution; brush and squeegee.
- ☐ Wipe mullions, window ledges and inside edge of doors.
- ☐ Remove streaks or water spots with a clean paper towel.

WEEKLY

Only work outside when the restaurant is open and when it is light out. Wear a safety vest.

Take trash to corral. Clean corral, drive thru-lane, parking lot and sidewalks.

- ☐ Spray drive-thru lane, corral floor and pad with a pump-up sprayer and Heavy Duty Degreaser Solution.
- ☐ Spray dumpsters with Heavy Duty Degreaser Solution.
- ☐ Spray a quarter of the parking lot each week with Heavy Duty Degreaser Solution, so the entire parking lot is cleaned each month.
- ☐ Rinse drive-thru lane corral floor, pad, dumpsters and areas of parking lot that were sprayed with Heavy Duty Degreaser Solution.
- ☐ Wash walls under drive-thru windows with Heavy Duty Degreaser Solution.
- ☐ Scrub all surfaces of the castle bins with a pot brush and Heavy Duty Degreaser solution. Spray with Sanitizer Solution and allow to air dry.
- ☐ Scrub heavy soils of drive-thru with Heavy Duty Degreaser Solution and deck brush.
- ☐ Scrub heavy soils of corral floor, walls and pad with Heavy Duty Degreaser Solution and deck brush.

Clean walks and patios

- ☐ Clean soffit light lenses.

Clean outside windows

- ☐ Clean outside windows with SolidSense All-Purpose Super Concentrate (APSC) Solution and a window brush. Squeegee the windows.

INTERIOR AND EXTERIOR WINDOWS/GLASS CLEANING

SUPPLIES:

KAY® Peroxide Multi
Surface Cleaner and
Disinfectant Solution

KAY® SolidSense™
All-Purpose Super
Concentrate (APSC)

Clean Sanitizer-
Soaked Towels

Other supplies needed:

Window Washing Brush
Paper Towels
Wet Floor Sign
Large Bucket
Small & Large Window Squeegees

IMPORTANT: This procedure can be used for cleaning indoor and outdoor windows, except in freezing or raining conditions. Refer to the O & T Manual for winterizing information. Use a wet floor sign as needed when cleaning indoor windows.

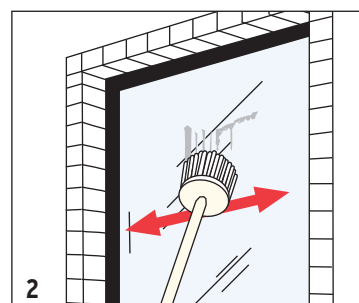

- Fill a bucket 1/4 full with **hot** (110-120°F) APSC Solution from sink; fill remainder of bucket with **lukewarm** (85-105°F) water

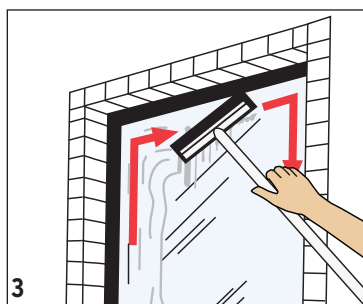

- Place CAUTION WET FLOOR sign near window being cleaned
- Dip brush in APSC Solution and frame the window

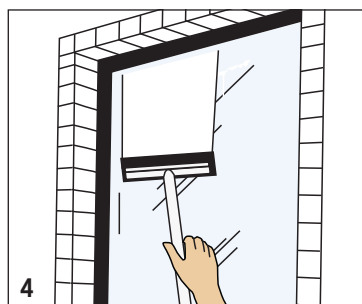

NOTE: Start with inside windows first

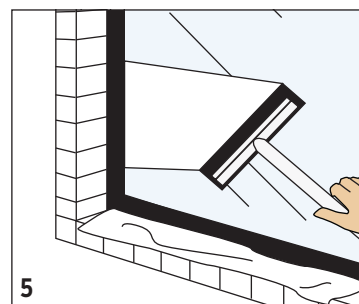

- Wet window with horizontal strokes

- Squeegee edge of window by going around the perimeter

- Place a dry paper towel along base of window to absorb runoff
- Start at top and pull squeegee down to middle of window

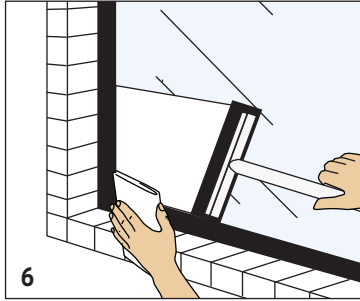

- Wipe squeegee clean after each stroke with a clean sanitizer-soaked towel; discard towel into soiled towel bucket after use
- Squeegee bottom half of window

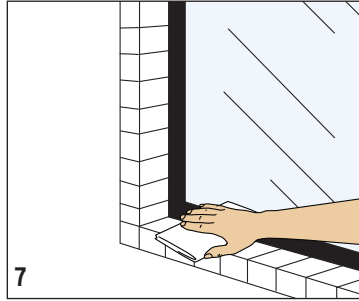

INTERIOR AND EXTERIOR WINDOWS/GLASS CLEANING (CONTINUED)

DAILY CLEANING

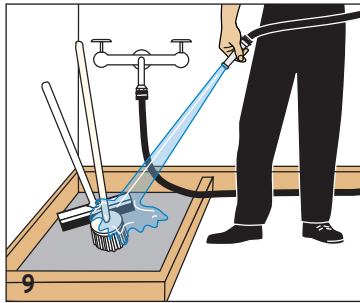

- On the last pass at the bottom of the window, follow path of squeegee with a clean sanitizer-soaked towel on the window bars or metal parts; discard towel into soiled towel bucket after use
NOTE: This keeps Solution from running onto the window ledge

- Use a clean paper towel to wipe window bars or metal parts and to remove excess moisture from window ledges or decorative panels below the windows
- Mop up any cleaning Solution that may have dripped onto floor; place CAUTION WET FLOOR signs around parameter of area being mopped

- Repeat steps 1-7 for all interior and exterior windows

- Thoroughly rinse tools after cleaning windows; return to storage

- Spray paper towel with Peroxide Multi Surface Cleaner and Disinfectant Solution
- Wipe with a clean paper towel
